## DIGICHART

A comprehensive vision tester with ease of use, operated by a handy remote control with dedicated keys for each chart unlike the traditional remotes where the clinician has to meddle with the switches for the charts. From visual acuity testing to educational charts, has got all the charts that one would require for a preliminary eye examination with special attention to pediatric population. Charts incorporated in a 18.5 inch wide LCD Monitor with high resolution and contrast. A smart power saving option that aids in automatic switch off of the unit when not in use. Wall mountable and compact enough for the examination rooms, it is definitely a choice of a tool for every professional eye examiner.

### PRODUCT FEATURES

- High resolution test images.
- ETDRS chart
- Single row and simple optotype display of charts
- Fixation targets for children & educational charts.
- Compact and user friendly remote, free from interference of other remotes.
- Power saving mode.
